

**ISSUE with: 2 x GTX TITAN Z's on a MSI X99S Gaming 9 Motherboard - System should also read 4 x GPU's**

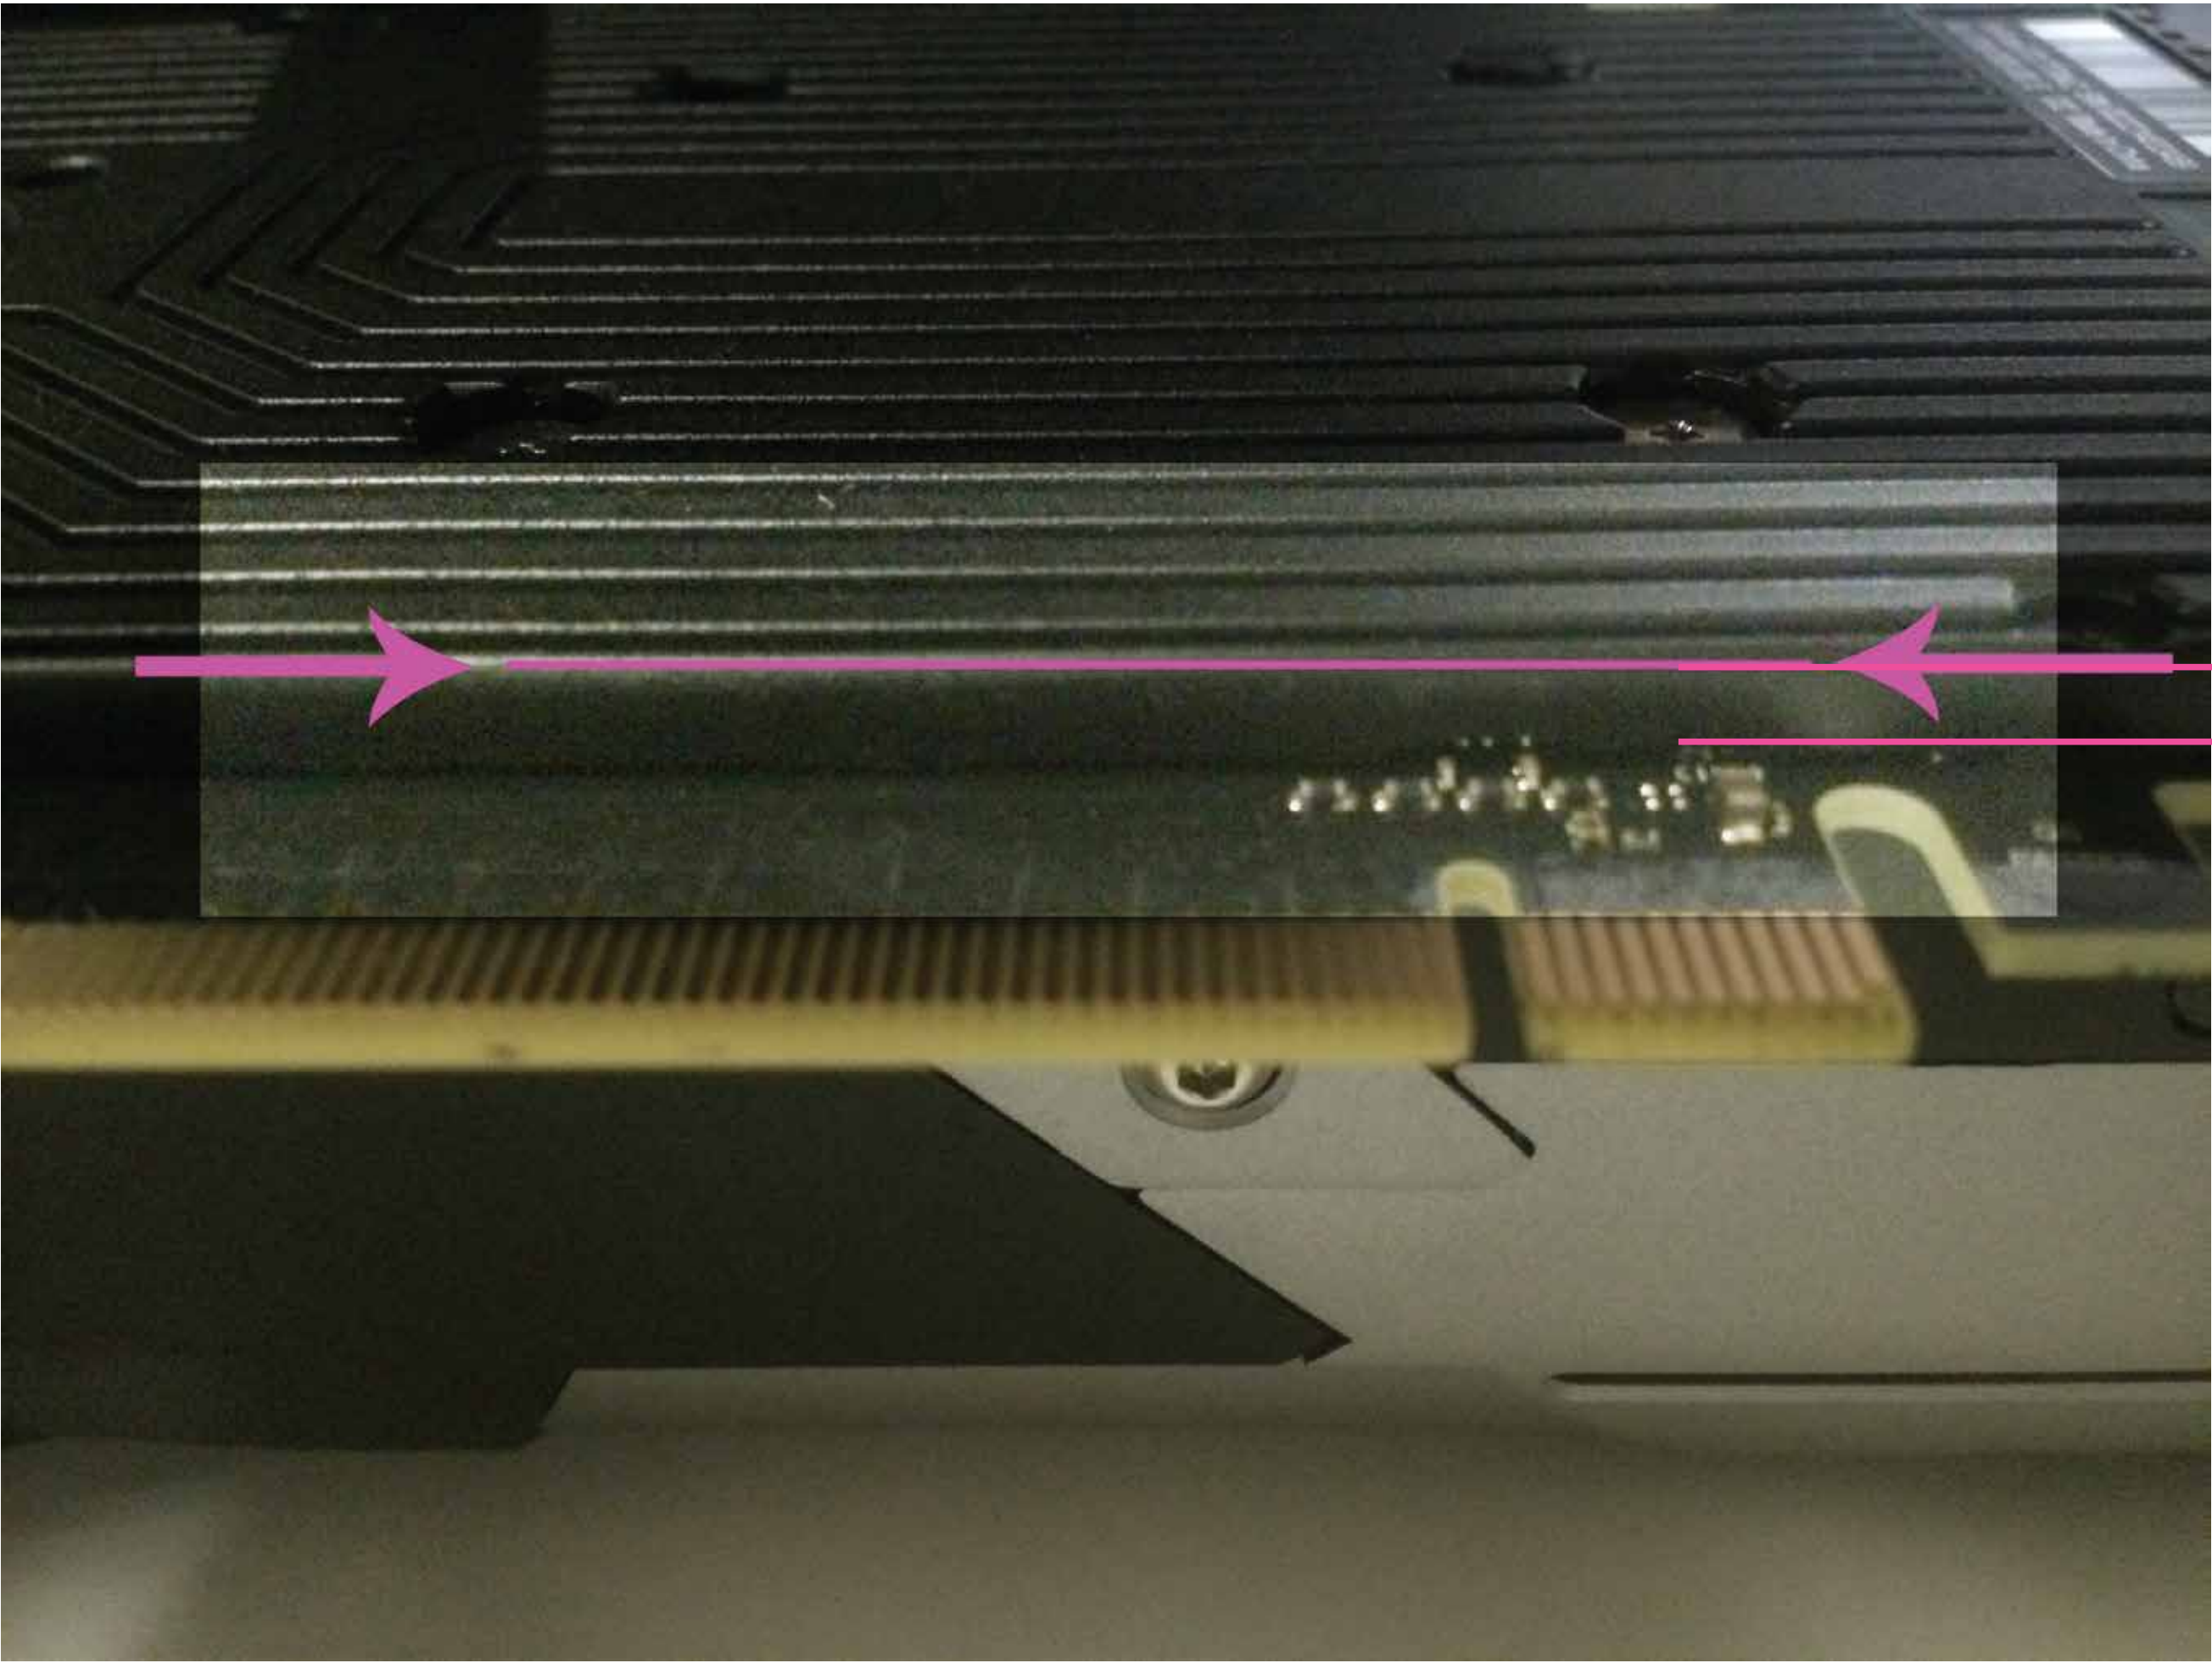

The Plastic support clips at the bottom of the ram module bays.  
PCI\_E - Lane 1

MSI X99S Gaming 9 AC

**Issue:**  
**Part 1 & 2** are colliding by a max. of 1.5mm and this will not allow for the GPU to be correctly seated on the X99S Gaming 9 Motherboard.

**Situation:**  
2 x GTX Titan Z will not fit on this motherboard without a modification required to either the GTX Titan Heat Sink or the Plastic Support Brackets for the Ram modules.

**PART 2**  
The height of the Heatsink

GTX Titan Z

System with  
Cooler Masters  
Cosmos 2 Case
